5) In G.O. No. 826-5/Edn. 84-14-108 dt. 9.8.1915 sanction was accorded to the provision from State Funds of a sum of Rs 60,000 per annum for opening Govt. Schools at Rs 200 each for developing primary education. The D.E. now requests sanction to make use of the above grant during the current year (1) for opening 89 new schools and for effecting improvements to certain existing schools. He also requests for an additional grant of Rs 48,431 per annum for similar purposes during the next year. The total for addition to the permanent recurring expenditure involved by these proposals is Rs 1,08,431 per annum of which Rs 60,000 has already been sanctioned.

6) The D.E.'s proposals involve, to a great extent, the diversion of the grant of Rs 60,000 (intended for developing primary edn.) to the improvement of existing schools. These improvements are not confined to primary schools only. They consist of the following items:-

(1) Increase in the number and pay of peons, sweepers, gardeners, scavengers, conductresses, &c., of High, Normal, A.V. and other schools;

(2) Increase in the number and emoluments of clerks, gymnastic and musical instructors, &c.

(3) Increase in the number and emoluments

of teachers both in English and Kannada schools; and,

(4) Increase of contingencies and conveyance

7) Of the 89 new schools to be opened from April 1916, 20 are aided schools proposed to be converted into Govt institutions and a good many of the schools are proposed to be opened at Taluk Head Quarters. In many cases the limit of Rs 200 per school laid down in the G.O. of August 1915 has not been adhered to. It is not also clear whether the conditions prescribed in para 3 have all been satisfied

T

8) The new schools to be opened and improvements to be effected during the next year are subject to the same objections as above. Further out of the 187 new schools proposed to be opened during the next official year, 102 are aided schools proposed to be converted into Govt institutions. Whether these are factors in the scheme ~~of persons~~ for spreading primary or other education has not been explained by the administrative Dr.

9) As already stated above the addition to the permanent recurring expenditure involved by these proposals is Rs 1,08,431 per annum. The expenditure on Education has far exceeded

the limit prescribed in the Triennial forecast of 1913 (Vide pages 5 and 7). The current year's budget provision including lump sum grants is Rs 22, 24, 300 and it is likely to increase during the next year on account of the present and other progressive schemes in the Edn. Dept. Attention is also invited to para 3 of the G.O. reviewing the ~~[illegible]~~ financial forecast for the triennium commencing with 1915-16 wherein it is stated that unless the revenue decidedly improves it will not be possible to finance new improvement schemes of a financially unproductive nature during the triennium and that ~~[illegible]~~ such new productive schemes as may be undertaken will have to be financed by external loans. If the present scheme, and especially the request for a grant of Rs 48, 431 per annum from the next official year which is yet unsanctioned, is to be considered as unproductive, it cannot be commenced during the next year unless funds therefor can be made available by cutting down the expenditure in some other way.

Note 10) The above note makes it clear that

300 new village schools is proposed ~~attempted~~ to be

diverted for other purposes. This Financial Deptt cannot agree to such diversion. The sum left over after opening new schools this year may be used for a similar purpose next year but the grant should not be diverted for opening other than village schools or for improving existing schools & only the 4th item can be agreed to under the proposals of the D.G.

1. Starting new Village Schools at a cost not exceeding Rs 200 in each case and in special areas such as contemplated in G.O. of 19.8.15

11 If the D.G. is unable to utilize the sum of Rs 60,000 which Govt provided for opening 300 elementary schools at Rs 200 each he should plainly say so. The Finance Deptt readily agree to large additional grants for the spread of Education on the understanding that Education will be really spread. It is easy enough to utilize a grant by granting increase of pay to existing staff.

Taking the Dy.'s statement of "Improvement to existing schools" it is seen that many of the items relate either to the creation of new peons' posts or to increase of pay of existing peons. Considering how largely the practice prevails in this State of employing Govt. peons for purely private work of officers having control over them, the proposed large expenditure on peons must be regarded more as a concession to the teachers than as a factor in the spread of education. As suggested in the Ags 7's note above the Dy. should be asked to submit revised proposals for utilizing the grant of Rs 60,000 as far as he is able to do so, strictly in accordance with the Govt order dated 19.8.1915. If increments of pay or new hands are required for existing institutions, proposition statements duly verified by the Caupter with suitable explanations should be submitted and funds separately obtained. Funds which the Finance Deptt. readily provide for opening more schools cannot be utilized in this wholesale fashion for incurring a class of expenditure each item of which requires the closest scrutiny of the Finance Deptt. before that deptt. can agree to it.

I think the improvement of existing schools is as important as opening new schools. With the spread of the compulsory system more pupils are resorting to the number of teachers has to be increased. There is no objection however to the additional medical staff & clerical allowances proposed being sanctioned & disallowed when they come up individually for sanction. In some schools, without a person, work may be entrusted both & in case of girls schools, conveyances are essential esp. in the case of young children. Regarding the limit of Rs 200 per cent new schools, it is a limit which has to be extended or reduced according to the necessity of great care & locality & the strength of the institutions. I do not think these considerations need delay our from providing funds. But as suggested by the Finance Dept, the importance of minimising the charges for medicals, establishing clerical allowances &c, may be ~~[illegible]~~ commended

The provision was made available in the month of May and the proposals are received at the end of the February and even then not in a form in which they could be sanctioned. The question of the improvement of schools is no doubt an important one but it may await. The proposals have to be carefully examined. Draft may be sent

Subject:---

Proposals for the opening of new schools and the improvement of the existing ones, ~~during the year 1922-23~~.

---

Papers under deposal. 25

(1) The Inspector General of Education has proposed the utilisation of the sum of Rs.60,000 sanctioned in August last as follows:-

Rs.24,453 for opening 89 new schools, and

Rs.35,547 for improving existing ones.

(2) Even as regards new schools, the proposals are not quite in accordance with the principles laid down, but as these schools are meant mostly for the benefit of backward communities and girls, requiring special treatment it is proposed to sanction them.

(3.) As regards the improvements proposed, there is no doubt that they may be necessary to a certain extent but it is not desirable to sanction them without careful examination, especially as it is proposed to provide for them by diverting funds assigned for a different purpose viz., the opening of new schools.

Papers under deposal

(4) The Inspector General of Education has also asked for a provision of Rs.48,469 being made for the next official year in connection with the opening of some more new schools and the improvement of existing ones. The provision may be made but sanction to utilise the amount will be accorded only after detailed examination of each proposal as it comes up.

Draft for approval

(5). A draft on the above lines with suitable in-

13 14

instructions regarding submission of future proposals is put up which may be approved.

(1) I submit herewith a 'Final Note' by the First Member regarding the proposals of the Inspector General of Education for the utilization of Rs.60,000 sanctioned for opening new schools, partly for opening new school and partly for improving existing ones.

(2) The First Member after examining the proposals considers that sanction may be given at once to the proposal for opening new schools and that further information may be called for regarding the proposals for the improvement of existing schools. He also suggests that the provision of Rs.48,469 asked for during the next year may be made in the Budget.

36 The points that require the consideration and orders of Govt. are :—

(1) the improvement of the existing schools by appointing additional teachers, gymnastic instructors, menials, sweepers and scavengers, and by increasing the pay of the existing hands as also the allotments for house-rent and contingencies.

(2) the opening of 187 new schools during 1916-17

(3) effecting improvements during 1916-17 to the existing schools by appointing add. hands and by increasing the house-rent + contingent grants.

+ (4) the revision of the forms for submitting proposals in this connection.

37 Regarding (1) + (3),

the locality of the school, its strength, and its nature as to whether it is a girls' school necessitating the appt. of a music or a sewing teacher, or a big boys' school requiring additional house-rent as also ~~the~~ a gymnastic instructor, or a Panchama or Hindustani school claiming any special allowance, have all to be considered. Statements enclosed by the D.G. are considered sufficient to justify the increases recommended, they will have to be sanctioned. As for the increases of pay to the existing hands the D.G. has not given sufficient reasons in all the cases. But it is a matter for orders whether in consideration of the length of the services rendered by the teachers etc. any increase of pay should be sanctioned as recommended by the D.G. Such increases have been however sanctioned every year. Perhaps the D.G. may be asked which of the increases are most urgently needed.

38 Regarding (2),

the no. of new schools recommended to be opened during 1916-17 is 187 of which as many as 102 are aided schools ~~set institutions~~ proposed to be converted into Govt. institutions at a cost of Rs. 1344-12-0 per mensem. The detail as to whether each of these aided instns is 7 years old as required by G.O. dt. 19.8.15 before it can be converted into a Govt. school, has not been furnished by the D.G. of Edn. If approved ~~the D.G. will~~ he will be asked to supply this information.

As to the scale of expenditure to be

adhered to when opening a new school, though a lump sum of Rs. 60000 was considered as the cost of 300 schools at Rs. 200 each, it is for consideration whether the schools to be opened at the taluk head quarters and sometimes at the Distt. head quarters, and the flourishing aided schools in the rural area proposed to be taken over under the management of Govt., should not be allowed a more liberal scale as recom^d by the DI.

Out of the 89 schools already sanctioned 33 exceed the scale of Rs. 200 p.m.; and of the 187 proposed to be opened during 1916-17 60 exceed the scale of Rs. 200 p.m. The scale of Rs. 200 may be taken only as the approximate cost of a new school to be opened.

~~It is however for orders~~

39 Regarding (4),

it is respectfully submitted that the forms already in use from a long time and in which the DI. has been submitting his proposals every year, are sufficiently suitable. They contain more details than the usual proposition statements for increase of exp^t. It is for orders whether the existing forms should be altered to include any more

40 Govt. have laid down in the recent G.O. issued that the DG should have a programme of each year's work prepared in advance to be able to select ~~schools~~ the localities that require schools as soon as the grants of the budget are intimated to him and submit complete proposals at the commencement of the year. Viewed in this light the proposals to open 187 schools and to ~~issue~~ improve existing institns during 1916-17 may be considered as a programme of the work to be undertaken by the DG during 1916-17 — if the proposals are sanctioned. The grant necessary for the purpose has however been ordered to be included in the budget of 1916-17.

41 Whether improvements to High Schools & Normal schools should be considered as part of the scheme contemplated under Expansion of Primary Edn., ~~and proposals~~ is a matter for orders.

The order may issue as the matter has already been delayed a considerable time.

104 I may however state that the order goes too much into detail. Para 3 may be curtailed by disallowing remit in all cases where strength is below 100.

105 Under 3 (3) further information is again required. I think the Govt's proposal may be sanctioned.

106 Para 6 says 'aided only'. There is where Mogelpress. All that Govt has told is his approval of Govt's proposal to limit the Govt. Mogelpress in 1916-17 to the strength of 1914. Retrench. This may be made clear in the order.

107 In conclusion, I wish to record the view that the policy of converting a very large no of aided schools into Govt schools will go against the scheme of village aided schools in the long run. Only 187 new schools more than 102 are added

# Submitted to His Highness.

(1) In February last the Inspector-General of Education submitted proposals for opening 89 new elementary schools and for the improvement of some of the existing schools at a cost of Rs.60,000, and also asked for a provision of Rs.48,469 for new schools to be opened in 1916-17. The first part of the proposals was sanctioned but further information was called for on the second point, viz., the improvement of existing schools (vide Government Order No.6430-3/Edn.111-15-2 submitted with my submission note dated the 28th April 1916). The Inspector-General of Education has now sent up modified proposals involving an expenditure of Rs.44,499 in the improvement of the existing schools and Rs.12,270 in opening 55 new schools or Rs.56,769 in all.

(2.) The proposals have been examined in detail jointly by the Financial Secretary and the Secretary for Education who have submitted a draft order sanctioning the proposals with a few modifications. This order has been agreed to by the Members of Council. Both the Members, however, lay stress on the principle that it is not desirable to permit the conversion of a very large number of aided schools into Government schools as it is likely to go against the scheme of Village aided schools in the long run. In his original proposals the Inspector-General of Education had no doubt proposed the conversion of about 102 aided institutions into Government schools out of the 187 schools referred to in the original proposals, but in the revised proposals he has reduced the number of such schools to a minimum. Out of the 55 new schools now proposed, only 5 are aided schools to be converted into Government schools and of these, one is a Taluk Hindustani School and the other four are in large villages in outlying and remote parts of the State. The other fifty new schools proposed are either Girls' Schools or schools for the benefit of the depressed classes.

The Inspector-General of Education's present proposals are therefore free from the objections that existed against his original proposals.

(3.) The draft order may be approved.

| 6. | do. do. Girls' Schools. | " 348 do. |
| | Total | Rs.23,982 per annum |
| | Grand Total ... | Rs.35,547 per annum |

These proposals involve the diversion of nearly Rs.35,547 provided for the opening of new schools, for a different - (1) object, viz., the improvement of existing schools. Moreover, of the 89 schools included in the list, no less than 20 are aided schools which are to be converted into Government institutions and many of the proposed schools are for the benefit of people resident in Taluk Headquarters. The report of the Inspector General of Education is silent as to the method of (2) selection. He should have given particulars as to population and other conditions laid down already by Government for such proposals. The cost proposed exceeds in (3) many cases the limit of Rs.300/- laid - down in that order. Lastly, the money was made available in August 1915, but (4) these proposals were received in March 1916, when there was not more than a - quarter of the official year left. The Inspector General asks for the whole - grant of Rs.60,000 and does not apportion the actual expenditure required till end of the year. The Government now sanction the expenditure required till June 1916 on the scale shown in the Inspector General's report for new schools. The (5) reminder of the allotment should be surrendered at once.

3. As regards the proposals for improvement of the existing institutions (6) Government observe that they cannot deal with them in the form now submitted. -

Moreover, many of these improvements consist of items such as the following, -- which do not seem to be of an urgent character, viz.,

(1) Increase in the number and pay of peons gardeners, sweepers, scavengers, &c of High, A.V., Normal and other Schools.

(2) Increase in the number and emoluments of clerks, gymnastic and musical instructors, &c.

(3) Increase in the number and emoluments of teachers both in English and Kannada schools, and

(4) Increase of contingencies and house rent.

The Inspector General of Education is requested to send up proposition statements duly verified by the Comptroller according to the rules in cases in which improvements to existing institutions are considered absolutely necessary and obtain orders on such proposals separately. In doing so he is requested to give information regarding the scale on which improvement is proposed, the strength and number of classes existing, or proposed to be opened. For the increase of recurring expenditure, the greatest care should be exercised. If he has made these proposals before, he is requested to quote his previous reference. These proposals should be resubmitted for

for that so that they may if sanctioned be given effect to from the beginning of the next year.

4. The Inspector General of Education states that a provision of Rs.48,469/- is required in connection with the opening of some more new schools and the improvement of existing ones during the next official year (1916-17) as per details given below:

The provision asked for will be made in the budget for 1916-17 but before the provision is utilised, the I,G. of Education is requested to obtain sanction after furnishing full details in each case. The provisions for the 89 new schools now sanctioned will also be made.

5. In conclusion, Government observe that the I.G. of Education should arrange to have a programme of schools to be started each year prepared in advance so that he may be able to select the schools required as soon as the budget provision is intimated to him and send up proposals in a complete form at the commencement of the year. The form to be adopted in such case should be such that the particulars in each case can be examined at a glance and should embody the remarks of inspecting officers.

SIR,

With reference to Government Order No.6430-3/Edn.111-15-2 dated 6th May 1916 regarding the opening of a number of new schools and the improvement of some of the existing ones, I have the honour to submit my explanations regarding the observations contained in para 2 of the Government Order:-

Regarding the first point that a sum of nearly Rs.35,547 provided for the opening of new schools has been proposed to be diverted for a different object, namely, improvement of existing schools, I beg to invite attention to my letter No.18326/843 dated 11th May 1915 with which I sent up a list of all the important items for which additional provision was required for the current official year. In the provisional budget, however, there was no provision made for several of these items and provision for some of the sanctioned items also was omitted. In my letter No.897/37 dated 16th July 1915 addressed to the Financial Secretary, I brought these omissions to the notice of Government and in reply got the Government Order No.Fl.666-7/G.F.125-14 dated 9th August 1915 in which it was stated that it was not possible to change the budget and that in the case of sanctioned items of expenditure money was to be found by re-

appropriation

reappropriation of sanctioned grants. The improvement of existing schools and the conversion of a certain number of aided schools into Government schools being needed in the interests of efficiency and there being no money in the Budget for the purpose, I was obliged to propose a diversion of the funds as above.

Next as regards the observation that my letter is silent as to the method of selection, I beg to state that generally the principles mentioned in para 3 of Government Order No.824-5/Edn. 84-14-10 dated 19th August 1915 have been borne in mind and I am sure that Government do not expect me to rigidly conform to these principles, for I find in practice that if the present policy of Government to spread Primary Education as fast as possible is to be realized in the ~~next~~ near future, a deviation is necessary according to local circumstances at the discretion of the Inspector General and the local officers. The particulars regarding the population and other conditions have all been noted as far could be gathered in the prescribed printed form.

Regarding the third observation that money was made available in August 1915 and that proposals were received in March 1916, it may be stated that the proposals received from the Inspecting Officers and others require considerable scrutiny and hence time is needed to obtain explanations which may be needed. Besides, in the months between August and April the number of qualified applicants for appointments will have been considerably reduced and it becomes necessary to wait till the next examinations are held and the results declared. It may also be stated that where schools suddenly receive large additions of boys it becomes necessary to wait and satisfy oneself that the additions are not due to mere adventitious causes. However, these are matters which I do not wish to trouble Government with, and so I merely refer to them to show that I am fully a

55
55

to the need to proceed as far as possible on the lines indicated by Government.

As regards the utilization of the whole grant of Rs.60,000 I may state at once that I did not put forward such a propositio and it has all along been usual to utilize only as much money as is needed for the year after the sanction of Government is received and to surrender the rest. As a matter of fact, out of this grant of Rs.60,000 I have already surrendered Rs.44,000 to th Financial Department.

Yes, but the proposals are for 2 years. The surrenders made did have been added under Upper

Next, as regards the remarks contained in para 3, I can only state that all the proposals made by me have been made afte duly satisfying myself as to their urgency and need and if Gover ment are of a different opinion, I can only leave the matter in their hands.

Regarding the proposition statements to be sent up duly verified by the Comptroller according to rules, I beg to state that the form in which these proposals are now being sent up is the form prescribed by Government and has been in existence for a long time past. It contains more details than the Financial form of the proposition statement and in my opinion is well suited for the purpose. At no time was it usual to send these form through the Comptroller and as the Financial Department is, I take it, consulted by Government when expenditure of money is involved, that Department has always had an opportunity of noting its observations. If, however, Government now require a change of procedure, instructions may kindly be sent as to whether the existing form may be dropped in the future. With regard to the information required to be given regarding the scale on which improvement is proposed, the strength and number of classes exist ing, etc,, the form as submitted by me contains information on a these points and it may be verified by a reference to the form itself.

Fly B (Invoice)

This is the procedure which is to be followed in future

Lastly, regarding the programme of schools to be maintained referred to in para 5 of the Government Order, I beg to refer to my letter No.12508/649 dated 26th March 1914 and to Government Order No.34-44/Edn.374-13-2 dated 2nd July 1914, which contain all the information required.

In conclusion, I beg to state that the explanations now given by me apply also to my proposals for the coming official year involving an expenditure of Rs.48,469. If these proposals are sanctioned by Government now, it will be easy to carry them out from the beginning of July next, as candidates for appointments can be easily procured out of the successful candidates in this year's examinations and school houses etc., which have now been promised can also be readily obtained. A long interval will necessarily create difficulties in the way of procuring candidates for employment and the promises made to provide buildings etc., are also often withdrawn thereby needing fresh efforts in the same direction.

Read:-

G.O. No. 6430-3/Edn.111-15-2, dated the 6th May 1916 sanctioning with certain observations the opening of 89 new schools during 1915-16 and calling for further information regarding schools to be opened in 1916-17.

2. Letter No.23076/980 dated 18th May 1916 from the I.G. of Education in Mysore offering explanations regarding the observations made in the G.O. read above.

ISSUE & SUBMIT, FURTHER ACTION

Ld. Cy. Dr. K. Subba Rao

---

Order No. 1142-3/Edn. 111-15-4.
Dated 3rd August 1916.

The I.G. of Education has stated that he was obliged to propose a diversion of the funds allotted for opening new schools for converting certain aided institutions into Government schools and for improving some of the existing schools in the interests of efficiency. Government are constrained to observe that if the information necessary for opening new schools had been collected in time the diversion might have been avoided and the funds applied actually in the opening of new schools as intended by Government.

2. As regards the necessity for deviation from the principles laid down in G.O. No. 824-5/Edn.84-14-10 dated 19th August 1915 in selecting places for opening schools

859-2/2/16

58 58

such a deviation should have been reported to Government while submitting proposals.

3. While Government fully concur in the observation of the I.G. of Education that the communications received from the Inspecting officers and others require considerable scrutiny they consider that the necessary details should be called for at least six months ahead.

4. The likelihood of the surrender of Rs.46,000 should have been brought to the notice of the Government in the progress reports.

5. Regarding proposals involving additional expenditure, Government have no objection to the forms now in use but they consider that all such proposals should be forwarded through the Comptroller for being duly verified by him before submission to Government direct.

6. As regards the I.G's proposals for opening new schools during 1916-17 contained in his letter No.16522/710 dated 22nd February 1916, it is noticed that out of 187 new schools proposed to be started during 1916-17, as many as 102 are aided ~~institutions~~ schools recommended to be converted into Government institutions. Though Government have laid down in G.O. No.824-5/Edn.84-14-10 dated 19th August 1915 that a number of the more successful aided schools may be converted annually into Government institutions and that ordinarily no aided school will be so

converted unless it has been working satisfactorily for at least seven years previously, this order need not be construed as countenancing the wholesale conversion of a large number of aided schools into Government institutions, as such a measure is not likely to result in a satisfactory increase in the number of schools. Aided schools should receive departmental encouragement and only a few exceptionally successful schools may be recommended for being taken over by Government.

Whenever aided schools are proposed for conversion into Government institutions the period for which each of the institutions has been working should also be stated. This information should now be supplied in the case of aided schools converted into Government institutions during the last year.

7. As regards the proposals for employing additional hands and for increasing the pay of the teachers and menials in the existing schools as well as the ~~and their~~ allotments for house rent and contingencies, the I.G. of Education is requested to submit recommendations only in the case of schools which are in urgent need of such additional expenditure. In several cases in which an increase of pay has now been recommended to the existing hands the grounds for the increase do not seem to be quite adequate.

8. Government have already provided Rs.48,469 in the budget of 1916-17 for

60 60

opening new schools. The I.G. of Education is requested to submit as early as possible his proposals regarding the schemes for which money has been provided in the budget of 1916-17, including the opening of new schools, duly verified and examined, starting at the same time how far the several principles laid down have been adhered to.

SIR,

With reference to Government Order No.1142-3/Edn.111-15-4 dated 3rd August 1916 making certain observations on my proposals contained in my letter No.23076/980 dated 18th May 1916, I have the honour to respectfully state that in the light of the explanations personally given by me to the First Member of Council, I believe that no further explanations are necessary as the need for diverting a portion of the funds provided for new schools arose from no provision having been made in the budget of last year for new hands and increases as asked for by me. The need for extra masters and for extra accommodation is imperative and more than 25,000 pupils have remained without admission for want of extra accommodation and extra masters. I fully hope that the Government will be pleased to sanction in their entirety the proposals which accompany this letter as also the proposals for increases and new hands for 1915-16 submitted by me with my letter No.16522/710 dated 22nd February 1916, so that as many as possible of the pupils referred to above may be admitted. These proposals have all been made in furtherence of the Educational Programme as fixed in Government Order No.3444/Edn.374-13-2 dated 2nd July 1914. At present there is a budget provision of Rs.72,918 of which however Rs.24,453 will go for the 89 schools

W D—0713—GPB—3,000—8-8-16

sanctioned

sanctioned in Government Order No.6430-3/Edn.111-15-2 dated 6th May 1916 and there will be a balance left of Rs.48,465. The total cost of the proposals now made, however amounts to Rs.56,769 made up of Rs.35,547 for increases and new hands proposed last year in my letter No.16522/710 dated 22nd February 1916, Rs.12,270 for new schools for 1916-17 as per enclosed lists, and Rs.8,952 for increases and new hand for the current year as per lists enclosed, showing an excess of - - Rs.8,304 over the budget allotment. All my proposals have been made after the most careful consideration and I find it difficult to omit any of them and this difficulty arises from there not being sufficie allotment in the budget for all the immediate needs of this year. Care will be taken to limit the expenditure this year to the Budget allotment and the extra cost of Rs.8,304 may be included in the Budge of the next official year, when the full charges amounting to Rs.5676 for the whole of the year 1917-18 will have to be met from the Budge of that year.

In conclusion, I beg with the utmost deference to state that my proposals have all been made after due consideration and in pursuance of the programme referred to above, and I fully hope that they will be acceptable to Government. Personally, I do not wish to ente into any discussion with Government regarding the observations made in the Government Order referred to as it may lead to the appearance of a controversy with Government.

I have the honour to be,

Sir,

Your most obedient servant,

Inspector General.
